

Why Choose Scorebuilders' On-Campus Review Course?

Scorebuilders is Committed to Excellence

Scorebuilders is a physical therapist owned company whose sole focus and passion is to prepare students for the National Physical Therapy Examinations (NPTE-PT, NPTE-PTA). We offer more On-Campus Review Courses and sell more review products than any other company. Scorebuilders has experienced nearly three decades of consecutive growth and is the recognized leader in physical therapy licensing preparation.

The Best Outcomes in the Business

Our On-Campus Review Course outcomes are unprecedented! 93.7% of first time test takers from accredited physical therapist assistant programs responding to our electronic survey indicated that they passed the NPTE-PTA on their first attempt. We offered 260 two day On-Campus Review Courses in 2018 at some of the finest PT and PTA academic programs in the United States.

A Comprehensive Course Built on a Solid Educational Foundation

Our course creates a stimulating learning environment that motivates and empowers students. Discussion, spirited debate, and assessment activities assist students to refine critical reasoning skills when answering challenging multiple-choice questions. Students learn active study strategies that allow them to not only learn or relearn critical academic content, but to develop the needed flexibility to apply this information in diverse clinical scenarios. These essential skills are critically important when attempting to pass a high-stakes, application driven exam like the NPTE-PTA.

Licensing-Like Questions are our Secret Recipe

Students consistently report that Scorebuilders' questions are the most realistic questions available for the NPTE-PTA. Licensing preparation companies that produce questions significantly more difficult than the questions on the actual exam promote microstudying which emphasizes tangential content at the expense of core content. Companies that produce questions that are easier than the questions on the actual exam promote overconfidence and provide students with a false sense of security. Our questions are extremely demanding, but they are the kind of demanding students experience on the BIG DAY! In addition, our sophisticated testing platform allows students to determine exactly how demanding each question is by identifying the percentage of students answering each question correctly and the percentage of students selecting each of the four options. This is a

critically important feature when attempting to improve decision making and is not possible with review books relying on antiquated technology like flash drives or CDs.

Amazing Course Instructors

We have 37 outstanding course instructors who have impressive qualifications and credentials. Profiles for each of our instructors are available on our web site www.scorebuilders.com/course_instructors.html. The instructors represent a broad mix of seasoned academic faculty and expert clinicians. They are hand-selected, experienced educators who are superior teachers and their teaching evaluations support this belief.

Course Evaluations

Take a look at aggregate and individual comments from recently completed On-Campus Review Courses. A quick glance reveals the effectiveness of our instructors and the overwhelming value of the course. Our continued growth and large list of repeat customers speaks to the success of our courses. Over 99% of course participants agreed when asked if the course should be offered to next year's graduating class. Visit our web site for additional representative examples of student and faculty feedback.

Free Basecamp - Standard Access

On-Campus Review Course participants receive free 30 day access to Basecamp (\$55 value). This innovative web-based program assists students to develop mastery of essential core academic content. **Basecamp** takes students on a journey through five Mountains (Musculoskeletal, Neuromuscular, Cardiopulmonary, Other Systems, Non-Systems) and 120 Trails (e.g., Anatomy, Cardiac - Pathology, Motor Learning, Electrotherapy). Basecamp collectively includes hundreds of academic assignments, 40 hours of videos, and 5,000 multiple-choice questions. To get a brief overview of this amazing product go to the following url and click the play button <https://scorebuilders.com/products/pta-basecamp-standard>.

On-Campus Review Course Manual

Students participating in the review course receive a copy of our On-Campus Review Course Manual. The innovative manual is filled with sample questions, assessment activities, study tools, and other valuable resources. The 250 page manual is used throughout the two-day course and remains a valuable resource for students until the day they take the actual exam. Unlike other review companies who simply repackage information from their review book and use it in their course manual, the information in the Scorebuilders' On-Campus Review Course Manual is 100% unique. Frequent manual updates ensure that the manuals convey even the most recent NPTE-PTA developments.

A Pricing Structure that Makes Sense

Our unique pricing structure does not fluctuate based on the number of course participants and instead relies on a fixed fee of \$3,500 for our two-day course. This type of structure makes the most innovative and comprehensive review course affordable for groups of various sizes. Our goal is to offer students the best review course on the market at a price that is affordable. We understand the economic reality of physical therapist assistant students and

have not increased the price of our On-Campus Review Course in well over a decade. In addition, we have consistently increased the value of the course by adding fantastic new features annually and providing access to incredible new offerings such as Basecamp.

Big Discounts on PTAEXAM: The Complete Study Guide

Attending the On-Campus Review Course allows students to save 25% on our best-selling review book **PTAEXAM: The Complete Study Guide**. The breadth and depth of the academic review and complexity of the sample questions in the current edition provide students with a significant competitive advantage. The review book is a technological marvel that includes access to our eLearning site, Insight. Insight effectively simulates the computer-based testing features used on the actual exam and includes a sophisticated performance analysis section. Students can quickly identify individual trends, compare their results to the results of other students, and use identified strengths and weaknesses to design individualized remedial strategies. The review book was redesigned to fully engage students and avoid the encyclopedic and technologically antiquated feel of other review books. An edition guarantee allows students to receive formal updates several times a year throughout the book's edition cycle. This innovative feature ensures that students always have the latest exam information and academic content at their fingertips.

Hosting an On-Campus Review Course

Contact Scorebuilders (207) 885-0304 or contact Scott Giles directly at sgiles@scorebuilders.com to schedule an On-Campus Review Course. If you prefer we can schedule a phone call or even a conference call with members of your class. The more you understand the important differences between Scorebuilders' On-Campus Review Course and the courses provided by our various competitors, the clearer the decision will be to host a Scorebuilders' course.

Scorebuilders is committed to the profession of physical therapy and is a recognized Strategic Business Partner with the American Physical Therapy Association. We have spent the last three decades serving the needs of the physical therapy profession. We believe in continuous innovation and are committed to assisting students to pass the licensing examination on their first attempt.

We look forward to working with your academic program and assisting your class to achieve their licensing goals!
